NCR EasyPoint™ 45

- Secure cabinetry and integrated peripherals in a small package allow for quick and **EASY** implementation in virtually any location.
- A rugged platform with easy access to internal components and remote monitoring options, ensures the kiosk is **EASY** to maintain.
- An Easy-to-use, ergonomic design ensures consumers will find interacting with the kiosk **EASY**.

Self-service made easy

Today's increasing consumer demand for self-service, along with the proliferation of labor shortages, rising costs, and improving technology, are all factors that drive the belief that *self-service means better service*.

Implementing over \$1.6 billion in self-service solutions in 2001 alone, NCR is uniquely positioned to meet the growing demand for self-service through solutions designed to address your business issues. To properly meet your requirements, self-service technology must be *Easy to implement, Easy to maintain, and Easy to use*. By leveraging NCR's expertise and understanding of the self-service market, NCR designed the NCR EasyPoint 45 to be "Easy" for you and your customers.

Easy to Implement: Leveraging the same proven core module found in the NCR EasyPoint 41, the NCR EasyPoint 45 adds a more secure cabinet with integrated peripherals designed for applications requiring a full-page printer and/or significant keyboard input. The standard full-page thermal printer and optional keyboard, trackball, PIN pad, and motorized card reader are all fully integrated in a small package, allowing you to quickly and easily implement kiosks virtually anywhere in your organization.

Easy to Maintain: NCR's heritage in retail and financial has given NCR a clear understanding of those robust environments, and their requirement for rugged, reliable platforms, especially among unattended devices. The NCR EasyPoint 45 was designed with this in mind and includes passively cooled processors, a secure cabinet, and integrated components that are all rigorously tested and optimized to work together, adding to the reliability and reduced downtime. When maintenance or upgrades need to occur, numerous remote monitoring options and easy access to internal components results in a quick resolution.

Easy to Use: NCR leverages 14 years of leadership and experience in the self-service industry to create an ergonomic user interface on a high quality 15" touchscreen. For applications requiring significant key input, a rugged, spill-proof, full-size keyboard is optional. The motorized card reader accepts Smart cards and captures the card during the transaction.

Go with a proven leader

NCR has over 35,000 NCR EasyPoint kiosks installed, giving it the experience and ability to show you and your customers that self-service not only can mean *better* service but also *Easy* service.

NCR EasyPoint 45

Physical specifications:

Full configuration (W x D x H): 20" x 22" x 20.5"
or 50.8cm x 55.88cm x 52.07cm

Environmental specifications:

- Operating temperature:
 - 32° F to 113° F or 0° C to 45° C
- Electrical Requirements:
 - Universal Power Supply
 - 100-120v – 56/60Hz, 2.0A
 - 200-240v – 56/60Hz, 1.0A
