# NCR RealPOS™ 7460 Workstation

- Intuitive touchscreen interface
- Low profile design
- NCR reliability and support
- A powerful solution  
...an exceptional value

## Performance and reliability are affordable

The NCR RealPOS 7460 is a powerful touchscreen Point-of-Service (POS) Workstation that provides the optimum combination of performance, reliability and affordability. It features advanced technology and flexible configuration options to help improve efficiency and customer service. In addition, the NCR RealPOS 7460 is retail hardened to withstand the bumps and spills of harsh environments. Our tough standards for durability mean less downtime while providing years of dependable operation.

## Workstation design helps improve service

Featuring a high-resolution color LCD operator display and intuitive touchscreen interface, the NCR RealPOS 7460 can help your employees quickly navigate through transactions, allowing you to reduce training time and efficiently serve your customers. And, with its low profile, the NCR RealPOS 7460 won't get in the way of personal service.

## Configured to meet your unique needs

The NCR RealPOS 7460 is available in either integrated or modular configurations. The integrated terminal can be placed on a counter or optionally wall mounted to save valuable workspace. The modular version allows the touchscreen to be detached from the base unit, providing additional configuration flexibility. Plus, NCR offers a full line of retail peripherals, including high performance printers, customer displays, cash drawers, and kitchen display systems for a complete solution tailored to your business needs.

## Open architecture protects your investment

The NCR RealPOS 7460 features an open PC-based architecture and is certified with the most popular Microsoft® Operating Systems including DOS, Windows® CE, Windows® 95/98, Windows NT®, and Windows® 2000. This protects your system investment and provides you with maximum flexibility to implement new POS functionality as your needs evolve.
